

Choosing grade sets – additional guidance for schools

We offer two different grade sets to report candidates' performance in a number of Cambridge IGCSE syllabuses for schools in administrative zone 3. You can choose to have your candidates' performance reported using either an A*–G grade set or a 9–1 grade set. This guide will help you make accurate exam entries so that your candidates receive results using the grade set they expect.

You must enter candidates for the correct Cambridge IGCSE syllabus code. Each syllabus code uses a specific grade set. Once you have made an entry for either grade set (A*–G or 9–1), you will not be able to move to the other grade set after the entries deadline.

Below is a list of Cambridge IGCSE subjects where we offer either an A*–G grade set or a 9–1 grade set to report your candidates' results. Make sure the entry you make is for the correct syllabus code.

Please check the series availability for the syllabus code you want to make entries for in the syllabus document or the Cambridge Guide to Making Entries.

There are two Cambridge IGCSEs in English as a Second Language

We offer two Cambridge IGCSEs in English as a Second Language, 0510 and 0511:

- 0511 has a speaking component which contributes to the candidate's final syllabus grade.
- 0510 has a speaking component that does not contribute towards the candidate's final syllabus grade; the result for speaking is reported separately.

Both 0511 and 0510 have 9–1 graded equivalent syllabuses:

- 0991 is the 0511 equivalent syllabus (with speaking contributing to the candidate's final syllabus grade).
- 0993 is the 0510 equivalent syllabus (with the result for speaking reported separately).

When making entries, make sure the syllabus code you select will give your candidates their results in the format you expect.

Take extra care when using A*–G and 9–1 syllabuses in the same subject

If you make entries for some candidates for A*–G and for other candidates for 9–1 graded Cambridge IGCSEs **in the same subject**, please take extra care when administering the exam.

Candidates will sit the exam at the same time, so you must make sure each candidate is sitting the exam paper that corresponds to the grade set intended for them. Double-check the syllabus code on the exam papers before distributing them to the candidates.

We will not be able to rectify any errors after the exam has taken place. We are not able to move a candidate or group of candidates between grade sets if you have entered them for, or they have sat, the incorrect paper.

If you need to change incorrect entries

If you make an entry for the syllabus on the 9–1 grading scale, it is not possible to switch to the syllabus on the A*–G grading scale once the entries deadline has passed. Similarly, you cannot move from an entry for the syllabus on the A*–G grading scale to an entry for the syllabus on the 9–1 grading scale after the entries deadline. If you make an entry for the wrong syllabus, you must withdraw and re-enter before the entries deadline.

If you want to make any amendments to your entries, including moving candidate entries from a 9–1 syllabus to an A*–G syllabus (or vice versa), do so as quickly as possible. You can use CI- Direct to make amendments to your entries and then submit your amendments to us.

If you encounter any difficulties or need urgent support, email or call us:

info@cambridgeinternational.org or +44 1223 553554.

If you identify any errors in your entries after the late entries deadline, contact us immediately. Any changes that we are able to make after the entries deadline will incur our standard late entry fees.
