1 Why choose this syllabus?

Key benefits

Cambridge IGCSE is the world's most popular international qualification for 14 to 16 year olds, although it can be taken by students of other ages. It is tried, tested and trusted.

Students can choose from 70 subjects in any combination – it is taught by over 4700 schools in 150 countries.

Our programmes balance a thorough knowledge and understanding of a subject and help to develop the skills learners need for their next steps in education or employment.

Cambridge IGCSE Bahasa Indonesia encourages learners to read a variety of texts and improve their use and style of language in a range of contexts. Learners develop the ability to understand and respond to what they read and to communicate effectively in writing. These skills equip them for progression to further study or employment.

Our approach in Cambridge IGCSE Bahasa Indonesia encourages learners to be:

confident, understanding and communicating effectively. They are able to communicate and justify views and opinions as well as respect those of others

responsible, understanding how to use language in different contexts and for different purposes to influence and affect the world around them

reflective, developing an awareness of how to use language effectively and identifying ways to improve communication

innovative, applying their knowledge and understanding to engage with a range of texts and styles of writing. They adapt their skills in order to respond to tasks in different contexts

engaged, taking inspiration from, and being interested in, the variety of language around them and the ways in which language is used.

'The strength of Cambridge IGCSE qualifications is internationally recognised and has provided an international pathway for our students to continue their studies around the world.'

Gary Tan, Head of Schools and CEO, Raffles International Group of Schools, Indonesia

International recognition and acceptance

Our expertise in curriculum, teaching and learning, and assessment is the basis for the recognition of our programmes and qualifications around the world. The combination of knowledge and skills in Cambridge IGCSE Bahasa Indonesia gives learners a solid foundation for further study. Candidates who achieve grades A* to C are well prepared to follow a wide range of courses.

Cambridge IGCSEs are accepted and valued by leading universities and employers around the world as evidence of academic achievement. Many universities require a combination of Cambridge International AS & A Levels and Cambridge IGCSEs or equivalent to meet their entry requirements.

UK NARIC, the national agency in the UK for the recognition and comparison of international qualifications and skills, has carried out an independent benchmarking study of Cambridge IGCSE and found it to be comparable to the standard of GCSE in the UK. This means students can be confident that their Cambridge IGCSE qualifications are accepted as equivalent to UK GCSEs by leading universities worldwide.

Descriptive

A descriptive composition describes a person, place or situation, painting a picture with words so that the reader can picture it in their mind.

- W5** use a range of vocabulary and sentence structures appropriate to the style of writing.

Component 3 – Speaking

Speaking test, approximately 9–11 minutes, 40 marks

There is no question paper for the Speaking test. **The test will be conducted and assessed in standard Bahasa Indonesia.**

Dictionaries may **not** be taken into the test.

All Speaking tests must be recorded for **all** candidates.

Structure of the Speaking test

There are two parts to the Speaking test.

Part 1: Presentation (2–3 minutes)

(20 marks – 10 marks for Content and Presentation and 10 marks for Quality of Language)

Each candidate talks for about 2–3 minutes on a single topic or theme which they have prepared before the test. This topic will relate to the culture of an Indonesian-speaking community/area.

Dictionaries may be used to prepare the presentation, but they must **not** be taken into the test.

The presentation should be continuous and there should be no need for the teacher/examiner to intervene. Teachers/examiners only interrupt to ask questions if the candidate shows no signs of finishing after three minutes, or to prompt candidates who are finding it difficult to continue.

We recommend the teacher/examiner asks their candidates to provide details of their presentation in advance of the Speaking test. This will give the teacher/examiner an indication of the content of the presentation and will enable you to check that the topic or theme relates to the culture of an Indonesian-speaking community/area. A Prepared Topic form can be downloaded from the samples database at www.cambridgeinternational.org/samples. Teachers may advise on the suitability of topics, but must not be involved in the preparation of the presentation.

Candidates may bring a limited quantity of illustrative material into the exam room, which may include maps, diagrams, statistics, pictures and short articles. Candidates may also bring their Prepared Topic form into the exam room to remind them of the main points they wish to include. They are not allowed to bring a script into the exam room.

Part 1 tests the following speaking assessment objectives:

- S1** present facts, ideas and opinions in a cohesive order which sustains the audience's interest
- S2** communicate clearly and purposefully using fluent language
- S3** use a range of grammatical structures and vocabulary accurately and effectively.

Part 2: Conversation (7–8 minutes)

(20 marks – 10 marks for Comprehension and Responsiveness and 10 marks for Quality of Language)

The presentation leads into a conversation between the teacher/examiner and the candidate about the candidate's chosen topic. The conversation will start by drawing on points from the candidate's presentation and then may move into wider, related areas.

The role of the teacher/examiner is that of an interested and sympathetic participant, allowing the candidate every opportunity to put forward their views, and to seek information and opinions from the teacher/examiner.

Candidates should be encouraged to consider how a conversation might develop around their chosen topic and must be prepared to supply additional factual material where appropriate and to express and justify a point of view. It is best to ask candidates open questions like 'tell me more about...', 'why?', 'how?' in order to allow them to express their viewpoints.

The teacher/examiner should normally allow 7–8 minutes for the conversation. If a candidate stops talking after a few minutes, the teacher/examiner should keep trying to make conversation so that the candidate is given every opportunity to converse. Teachers/examiners should be ready to explore another aspect of the topic or wider related areas, and questions should be rephrased (rather than repeated) in an attempt to continue the dialogue.

Part 2 tests the following speaking assessment objectives:

- S1** present facts, ideas and opinions in a cohesive order which sustains the audience's interest
- S2** communicate clearly and purposefully using fluent language
- S3** use a range of grammatical structures and vocabulary accurately and effectively
- S4** understand and respond appropriately in conversation.

Administration of the Speaking test

Speaking tests take place before the main examination series (see the timetable for the relevant series). A teacher/examiner at the centre assesses candidates using the Speaking assessment criteria grids (see pages 18–21). After the tests, the centre must send the final marks, a recorded sample of the candidates' performances and completed forms for external moderation to Cambridge International before the advertised deadline.

Further information about the administration of speaking tests is provided in the *Cambridge Handbook* for the relevant year at www.cambridgeinternational.org/eoguide

Recording and submitting candidates' marks and work

Please refer to the samples database at www.cambridgeinternational.org/samples for information, dates and methods of submission of candidates' marks and work.

You should record candidates' marks for the Speaking test on the Oral Examination Summary Form which you should download each year from the samples database at www.cambridgeinternational.org/samples. The database will ask you for the syllabus code (i.e. 0538), after which it will take you to the correct form. Follow the instructions on the form to complete it.

The marks on this form must be identical to the marks you submit to Cambridge International.

Internal moderation

If more than one teacher/examiner in your centre is marking the Speaking tests you must make arrangements to moderate or standardise your teachers'/examiners' marking so that all candidates are assessed to a common standard. (If only one teacher is marking internal assessments, no internal moderation is necessary.) You can find further information on the process of internal moderation on the samples database at www.cambridgeinternational.org/samples

You should record the internally moderated marks for all candidates on the Oral Examination Summary Form and submit these marks to Cambridge International according to the instructions in the *Cambridge Handbook* for the relevant year of assessment.

External moderation

Cambridge International will externally moderate all internally assessed components.

- You must submit the marks of all candidates to Cambridge International.
- You must also submit the marked work of a sample of candidates to Cambridge International.

The sample you submit to Cambridge International should ideally include examples of the marking of each teacher/examiner. The samples database at www.cambridgeinternational.org/samples explains how the sample must be selected.

The samples database at www.cambridgeinternational.org/samples also provides details of how to submit the marks and work.

External moderators will produce a short report for each centre with feedback on your marking and administration of the assessment.

Speaking assessment criteria grids

The Speaking assessment criteria grid for the Presentation (part 1) is on pages 18 and 19 of this syllabus. The Speaking assessment criteria grid for the Conversation (part 2) is on pages 20 and 21 of this syllabus.

The teacher/examiner should listen to the work and make a judgement about which level statement is the best fit for each of the assessment criteria. Marking of work should be positive, rewarding achievement where possible. To ensure you reward what a candidate can do rather than penalise mistakes or omissions teachers/examiners should start at the bottom of the mark scheme and work upwards through the descriptors.

You must select the set of descriptors that most closely describes the quality of the work being marked. As you work upwards through the mark scheme, you will eventually arrive at a set of descriptors that fits the candidate's performance. When you reach this point, check the descriptors in the band above to confirm whether or not there is enough evidence to award a mark in the higher band.

To select the most appropriate mark within each set of descriptors, you should use the following guidance:

- If most of the descriptors fit the work, then award the top mark in the band.
- If there is just enough evidence (and you had perhaps been considering the band below), then award the lowest mark in the band.

Part 1: Presentation (Total: 20 marks)

Give a mark out of 10 for **Content and Presentation**, and a mark out of 10 for **Quality of Language**.

5 What else you need to know

This section is an overview of other information you need to know about this syllabus. It will help to share the administrative information with your exams officer so they know when you will need their support. Find more information about our administrative processes at www.cambridgeinternational.org/eoguide

Before you start

Previous study

We recommend that learners starting this course use Bahasa Indonesia on a daily basis at school and/or in their community.

Guided learning hours

We design Cambridge IGCSE syllabuses based on learners having about 130 guided learning hours for each subject during the course but this is for guidance only. The number of hours a learner needs to achieve the qualification may vary according to local practice and their previous experience of the subject.

Availability and timetables

All Cambridge schools are allocated to one of six administrative zones. Each zone has a specific timetable. This syllabus is **not** available in all administrative zones. To find out about availability check the syllabus page at www.cambridgeinternational.org/igcse

You can view the timetable for your administrative zone at www.cambridgeinternational.org/timetables

You can enter candidates in the June exam series.

Check you are using the syllabus for the year the candidate is taking the exam.

This syllabus is available to private candidates, provided that the accommodating centre can make appropriate arrangements to conduct and assess the Speaking test, and submit the required sample and paperwork to Cambridge International for external moderation. For more information, see the *Cambridge Guide to Making Entries*.

Combining with other syllabuses

Candidates can take this syllabus alongside other Cambridge International syllabuses in a single exam series. The only exceptions are syllabuses with the same title at the same level.

Cambridge IGCSE, Cambridge IGCSE (9–1) and Cambridge O Level syllabuses are at the same level.

Group awards: Cambridge ICE

Cambridge ICE (International Certificate of Education) is a group award for Cambridge IGCSE. It allows schools to offer a broad and balanced curriculum by recognising the achievements of learners who pass examinations in a range of different subjects.

Making entries

Exams officers are responsible for submitting entries to Cambridge International. We encourage them to work closely with you to make sure they enter the right number of candidates for the right combination of syllabus components. Entry option codes and instructions for submitting entries are in the *Cambridge Guide to Making Entries*. Your exams officer has a copy of this guide.

Exam administration

To keep our exams secure, we produce question papers for different areas of the world, known as administrative zones. We allocate all Cambridge schools to one administrative zone determined by their location. Each zone has a specific timetable. Some of our syllabuses offer candidates different assessment options. An entry option code is used to identify the components the candidate will take relevant to the administrative zone and the available assessment options.

Support for exams officers

We know how important exams officers are to the successful running of exams. We provide them with the support they need to make your entries on time. Your exams officer will find this support, and guidance for all other phases of the Cambridge Exams Cycle, at www.cambridgeinternational.org/eoguide

Retakes

Candidates can retake the whole qualification as many times as they want to. This is a linear qualification so candidates cannot re-sit individual components.

Candidates cannot resubmit, in whole or in part, speaking tests from a previous series. To confirm if an option is available to carry forward marks for this syllabus, see the *Cambridge Guide to Making Entries* for the relevant series. Regulations for carrying forward internally assessed marks can be found in the *Cambridge Handbook* for the relevant year at www.cambridgeinternational.org/eoguide

Equality and inclusion

We have taken great care to avoid bias of any kind in the preparation of this syllabus and related assessment materials. In compliance with the UK Equality Act (2010) we have designed this qualification to avoid any direct and indirect discrimination.

The standard assessment arrangements may present unnecessary barriers for candidates with disabilities or learning difficulties. We can put arrangements in place for these candidates to enable them to access the assessments and receive recognition of their attainment. We do not agree access arrangements if they give candidates an unfair advantage over others or if they compromise the standards being assessed.

Candidates who cannot access the assessment of any component may be able to receive an award based on the parts of the assessment they have completed.

Information on access arrangements is in the *Cambridge Handbook* at www.cambridgeinternational.org/eoguide

Language

This syllabus is available in English only. The assessment materials are available in Bahasa Indonesia.

After the exam

Grading and reporting

Grades A*, A, B, C, D, E, F or G indicate the standard a candidate achieved at Cambridge IGCSE.

A* is the highest and G is the lowest. 'Ungraded' means that the candidate's performance did not meet the standard required for grade G. 'Ungraded' is reported on the statement of results but not on the certificate. In specific circumstances your candidates may see one of the following letters on their statement of results:

- Q (pending)
- X (no result)
- Y (to be issued).

These letters do not appear on the certificate.

How students and teachers can use the grades

Assessment at Cambridge IGCSE has two purposes:

- to measure learning and achievement

The assessment:

- confirms achievement and performance in relation to the knowledge, understanding and skills specified in the syllabus, to the levels described in the grade descriptions.

- to show likely future success

The outcomes:

- help predict which students are well prepared for a particular course or career and/or which students are more likely to be successful
- help students choose the most suitable course or career.

Grade descriptions

Grade descriptions are provided to give an indication of the standards of achievement candidates awarded particular grades are likely to show. Weakness in one aspect of the examination may be balanced by a better performance in some other aspect.

Grade descriptions for Cambridge IGCSE Bahasa Indonesia will be published after the first assessment of the syllabus in 2022. Find more information at www.cambridgeinternational.org/igcse
